

Donations and Supplies

We rely heavily on the generosity of our volunteers for donations and supplies to keep our programs running. Many of the materials and supplies we use are expensive to purchase or unavailable in country due to Haiti's poor resources and lack of infrastructure. We will often ask our volunteers to assist us by transporting program supplies in their checked luggage as they travel to Haiti. The items below (listed in order of need) are medications and supplies that we need on a daily basis. Those we need most are in **bold**. **Please speak with us before bringing any medical donations that are not listed.** We do not accept expired medications or broken equipment. **Please try to remove as much packaging as you can.** Both the hospital and mobile clinic midwives prefer to use acetaminophen over ibuprofen.

Medicines & Medical Supplies

Acetaminophen
 Alcohol Wipes
 Amnihooks
 Amoxicillin
 Ampicillin
 Antacids (Tums)
 Blood pressure cuffs
 Cannula Caps/ Bungs

 Razors
 Stethoscopes
 Twin pack needle
 systems
 Gallon or snack sized
 baggies

Supplies are for both Hinche and the Carrie Wortham Birth Center. If you are going directly to the birth center upon arrival we ask that you separate the donated supplies in separate bags. The driver will transport the bag to us where we will separate the items that will be going to the birth center.

We greatly appreciate your support with fundraising for and purchasing donations. For more information on how you can help us with donations, please email us at info@midwivesforhaiti.org (Last Updated 3/15/17)
